PARKING, DROP OFF AND PICK UP

Please do not park in front of the gates. It is you as the parent's responsibility to see to it that your child does not move outside the school without supervision when he/she is being dropped off.

Accompany your child until a teacher or assistant can receive him/her (child must be scanned in parents' presence). Greet your child before you leave but keep it short – a long stretched out good buy might just upset the child.

Please do not leave wallets, cell phones, handbags, and other expensive belongings in the car where others can see it. Make sure your car is locked. Please have a lookout before you drive away for other people and children.
